WORK EXPERIENCE

[19/03/2022 – Current]

.NET Backend developer

Interlogica

City: Rome | **Country**: Italy

At Interlogica we are working directly with ALD a car rental company. Me and my team are in charge of maintaining the ALD API's and services. To do this we maintained old API's made in BizTalk and worked on making the new generation of API's using **ASP.NET** for .Net Core 3.1. In 2024 we are working on improving the infrastructure and security of our client by moving all the API's inside of an **azure** api manager.

Alongside the business logic we work on maintaining the multiple Databases of our client, these were **Oracle** and **MSSql** instances.

[05/07/2021 – 18/03/2022]

Salesforce Fullstack Developer

Deloitte Italia

City: Rome | **Country**: Italy

At Deloitte I worked on the [TIM Sparkle Project](#) as a **fullstack** salesforce developer.

In this project I experienced both **Waterfall** development and **Agile** development, I worked on **Jira** tickets for change requests and bug fixes, also and adding **unit testing** and doing code reviews and benchmarks.

Me and a few other colleagues created the new administrative section of our customer portal, where the admins create, edit and manage new users and their permission, to set these permission we connected to an **external API service** called C-IAM.

EDUCATION AND TRAINING

[10/2018 – 09/2022]
